LAUNCH YOUR EXCHANGE

In a few minutes

Introducing ✕ **TomoX**

A product by TomoChain

About TomoX

- One-stop solution to launch a decentralized crypto exchange in minutes.

- A snappy user experience with fast trades rivaling any centralized exchange

- All the functionality of standard crypto exchanges without the need to custody tokens or manage sensitive login details

- Supports token trading and lending straight from user wallets

- Supports all the major crypto currencies such as BTC, ETH, USDT.

- Handles all the technical hassles, so that you can focus entirely on your exchange business.

Pair Listing & Pairs Management

Trial Domain
Launch your exchange immediately

How it works

Traders

Relayers

TomoDEX	SkyDEX	DexUSA
LotusDEX	DEXRoyal	TDEX
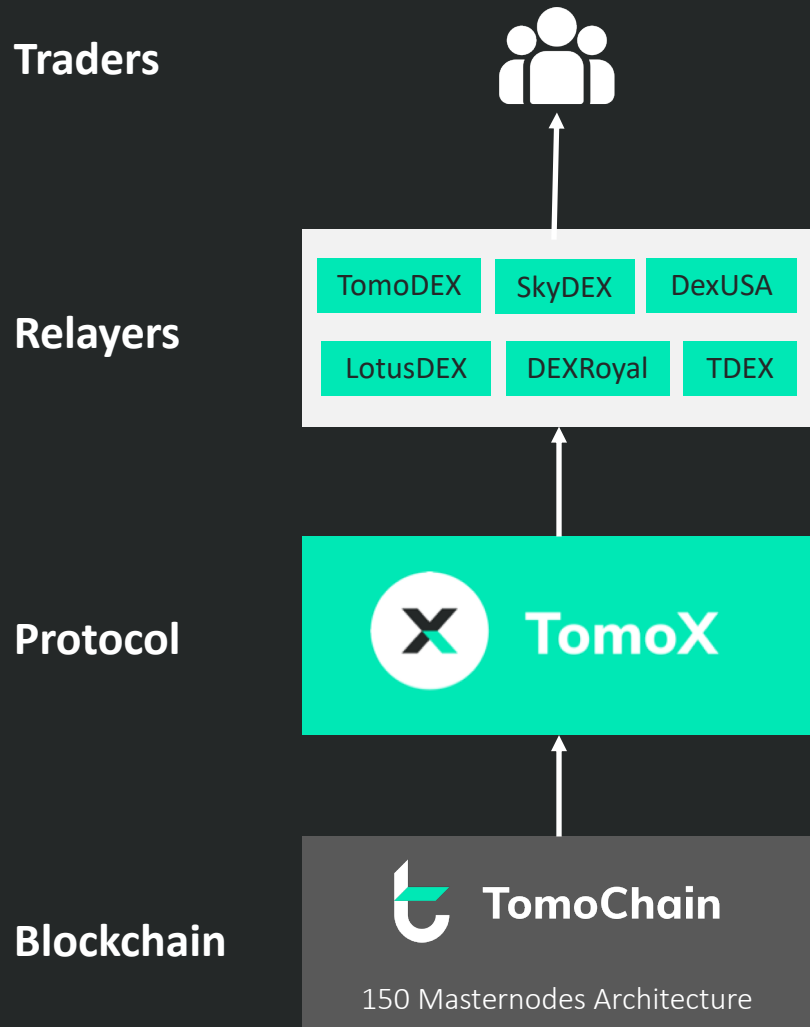

- Relayers can be customized to be diverse: offering different tokens, focusing on different markets

Protocol

TomoX

- TomoX interfaces all Exchanges to the Blockchain and provides shared liquidity

Blockchain

TomoChain

150 Masternodes Architecture

- The core TomoChain Blockchain secures and stores every trade

Launch in 3 Steps

1 Log into TomoRelayer
Visit relayer.tomochain.com

Log in using

TomoWallet, Ledger, Metamask, private key or mnemonic phases

2 Set up exchange
Select pairs & set trading fees

Deposit 25,000 TOMO

This refundable deposit is kept in a smart contract and used to pay gas fees. The unused amount can be withdrawn when choosing to close down the exchange.

3 Done!
Your exchange is ready

Configure domain & server

Upon completing registration, install the provided backend/frontend scripts to your own server and connect your domain to manage, customize, and maintain your exchange.
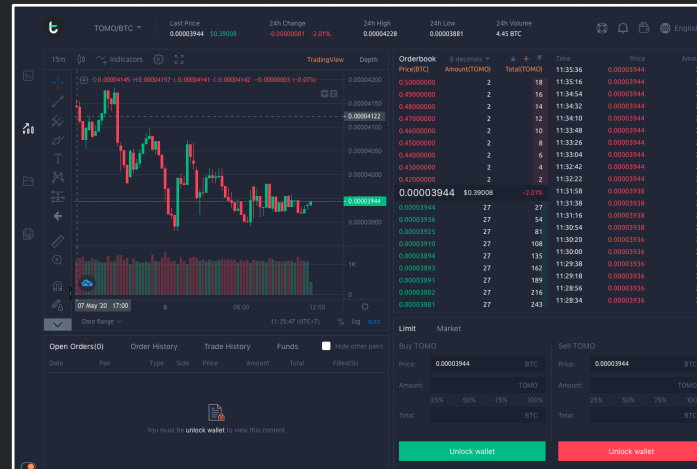

Special Offer

Get launched immediately! Through 12th August 2020, TomoChain is providing an optional FREE trial to manage all server operations and the domain of your exchange - no registration is required. Contact us for further support.
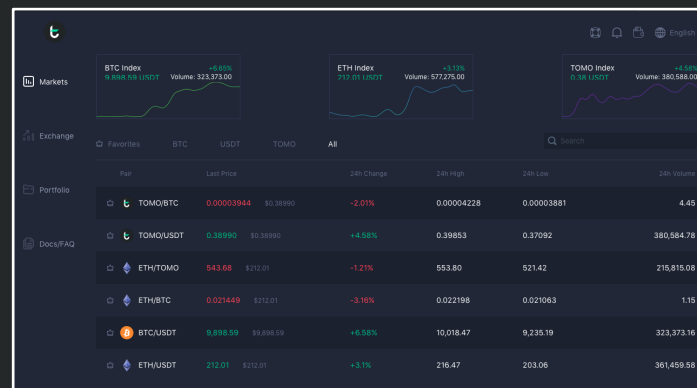

Screenshots
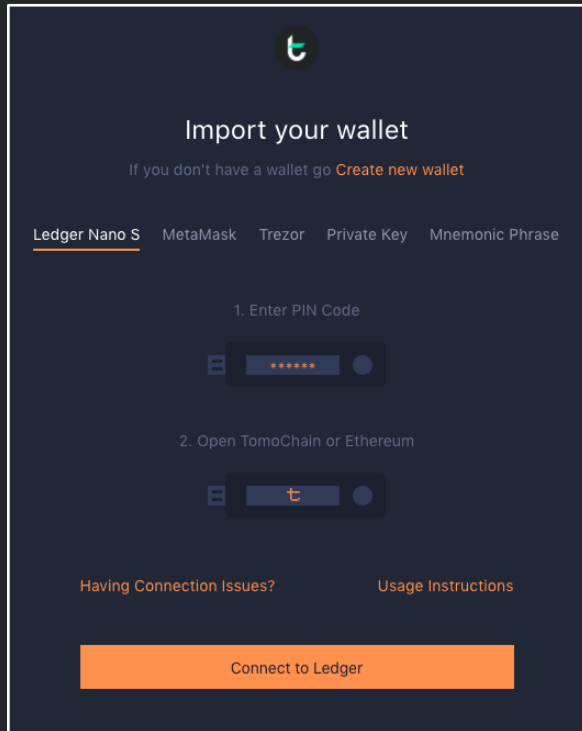

- Access the exchange using hot wallet, cold wallet or private key

- Get the latest market update using the equipped dashboard

- Trade instantly on the industry-standard trading dashboard

Further Development

Issue your exchange token in minutes

Launch an exchange token quickly & painlessly to provide customer incentives unique to your decentralized exchange. Visit issuer.tomochain.com to issue your token in just a few minutes.

Fully open-source and customizable

TomoX and TomoRelayer are open-sourced technologies. Customize your exchange with brand-specific features, content, and functionality.

Who can benefit from running TomoX Exchanges?

Check out TomoX especially if you belong to any of the groups below

1 You are an exchange expert

You know everything about trading, lending, market making, managing community; but startup an exchange may seem too expensive and technical to you. TomoX makes launching an exchange affordable, simple, and quick.

2 You have a community

If your community is comprised of investors and traders, launching a DEX via TomoX is an ideal, no-brainer solution.

3 You are running an exchange

You run a centralized exchange, and would like to expand with a DEX operation. A TomoX DEX can be customized and then launched in minutes, costing a fraction to set up and maintain.

4 You want to try out the exchange business

The exchange business can be a very profitable one. However the barrier to entry is quite high due to the cost associated with setting up an exchange and operating it. This includes the need for strong technical knowledge and custody challenges of managing customer funds. With TomoX, you can minimize such requirements and simplify the launch of an exchange from months to minutes.

Exclusive support from the TomoChain Team

Work directly with our team to advance your exchange business even further

Exchange Customization

We can help you to customize your exchange to match with your business requirements. Customization includes:
- User interface
- Landing page
- Add-on functions such as: Referral system, Log in & user management, Copy trade, and more

Dedicated Technical Partner

TomoChain can work as your Technical Partner who handles all exchange operations, maintenance and upgrade tasks. You focus on growing the business, and we do the rest.

Contact us at enterprise@tomochain.com to discuss further. We will get back to you within 3 working days.
